SCOTT JOBIN-BEVANS, Ph.D., P.Geo. JOINS JIMINEX INC. BOARD OF DIRECTORS

October 26, 2010 – Pass Lake, Ontario - James R. B. Parres, President & CEO of Jiminex Inc. is pleased to report that Scott Jobin-Bevans, Ph.D., P.Geo. has joined the Company's Board of Directors. Dr. Jobin-Bevans is currently President, CEO and Director of Treasury Metals Inc. He is as well the President of the Prospectors and Developers Association of Canada, the world's largest of such associations. Dr. Jobin-Bevans is a Co-founder and Director of Caracle Creek International Consulting Inc., a professional geological & geophysical consulting company that provides geological and engineering services to the mineral exploration and mining industry. He has more than 20 years in mineral exploration with public company experience as director, officer and technical advisor and has expertise in project evaluation and in leading projects from generative stage to development. Mr. Parres comments "We are very happy to have Dr. Jobin-Bevans join the Jiminex Board of Directors. He brings to the table not only excellent geological expertise but also solid corporate and professional association management skills."

Jiminex Inc. was listed as a junior resource company on the TSX venture exchange in late August 2009 and is focused on gold exploration in Canada. The Company has acquired three high potential gold properties located in three separate well-known gold and copper-zinc mining camps. The Northern Eagle property is located in the Hemlo gold mining camp, Ontario close to the 21 million ounce Hemlo gold deposit currently being mined by Barrick Gold Corp. This property is considered one of the best target areas in which to locate another Hemlo-style World-Class gold deposit and Jiminex is earning a 50% interest from Beaufield Resources Inc. The 100%-owned Misehkw River property is located in the Pickle Lake gold mining region of Ontario near to the Pickle Crow Project of PC Gold Inc. and in the same general region as the Musselwhite Mine currently being mined by Goldcorp Inc. Misehkw River presents an opportunity to locate significant iron formation hosted gold deposits over a large target area of approximately 30 kilometres. The 100% owned Parres and Parres Two properties are located in the well-known Snow Lake copper-zinc and gold mining camp of Manitoba where the major new Lalor Lake copper-zinc and gold deposit discovery of HudBay Minerals Inc. is actively being explored and developed.

Allan J. Willy, P. Eng., VP Exploration & Director of Jiminex Inc. is the qualified person responsible for the geotechnical content of the Company's public information.
