Disclosure Controls and Procedures

Disclosure controls and procedures have been designed to ensure that information required to be disclosed by Jiminex is accumulated and communicated to our management as appropriate to allow timely decisions regarding required disclosure. The Company's Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation as of July 31, 2008, that our disclosure controls and procedures were effective. It should be noted that while the Company's Chief Executive Officer and Chief Financial Officer believe that our disclosure controls provide a reasonable level of assurance and that they are effective, they do not expect that the disclosure controls and procedures will prevent all errors and fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Internal Controls over Financial Reporting

The Chief Executive Officer and Chief Financial Officer of Jiminex are responsible for designing internal controls over financial reporting or causing them to be designed under their supervision in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with

Canadian GAAP. We assessed the design of our internal control over financial reporting as of July 31, 2008. During this process, management identified a material weakness in internal controls over financial reporting which is as follows:

- (a) Due to the limited number of personnel at Jiminex, it is not feasible to achieve complete segregation of incompatible duties.

The weakness in Jiminex's internal controls over financial reporting result in a more than remote likelihood that a material misstatement would not be prevented or detected. Management and the board of directors work to mitigate the risk of material misstatement in financial reporting, however, there can be no assurance that this risk can be reduced to less than a remote likelihood of material misstatement.

Additional disclosures pertaining to the Company's material change reports, press releases and other information are available on the SEDAR website at www.sedar.com.
